

16/03/2022

Dear Mr Brogan

I write in behalf of the Edinburgh labour group to re affirm our commitment to the Edinburgh Climate Commission

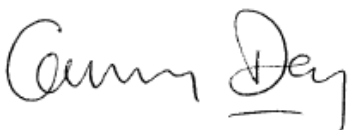

Being one of the administration parties actively engaged in the creation of the Edinburgh Climate Commission, I can reiterate our full support for their ongoing work.

All of us acknowledge and understand the importance of taking bold steps to change the way we behave and respond to what is now of course a climate emergency.

The way we travel, the food we eat, the goods we buy must all be reconsidered in our attempts to change the world for the future

A Better climate future delivered by a just transition is at the heart of our vision for Edinburgh

Edinburgh Labour's manifesto will also commit to further measures to respond to the climate emergency and I will forward you a copy of this once launched

Councillor Cammy Day
